

TECorp Presents at the 2013 Offshore Technology Conference

HOUSTON – The world’s largest oil and gas conference, the Offshore Technology Conference, kicked off Monday, May 6, at Reliant Park and the TECorp team was on hand to help celebrate the event.

More than 104,000 people attended the OTC this year, the second-highest attendance in conference history. The Monday morning technical sessions were kicked off with a featured TECorp project, the world’s largest slug catcher, part of the Chinese National Offshore Oil Corporation (CNOOC) and Husky Energy Inc. Liwan Gas Field onshore development. TECorp founder, Mr. Lowell C. Thronson, P.E., gave a presentation summarizing the project which was entitled “Design Challenges of the World’s Largest Slug Catcher.” The technical session category “Adaptive Thinking to Create New Opportunities” was chaired by Ms. Cornelia Noel of Shell.

TECorp-Jord Alliance

Gathering at the Hotel ZaZa in Houston, Texas were members of TECorp International and Jord International at a reception to celebrate their alliance partnership in conjunction with the 2013 Offshore Technology Conference.
